PROFESSIONAL DEVELOPMENT

Full-Stack Developer (011/17 - present) Charleston, SC
Employer: PlayPosit

I worked remotely with developers around the globe to utilize Vue.js and Node.js in order to build a web application that allows educators to easily design video lessons in order to best educate their students.

Front-End Developer (05/16 - 07/17) Charleston, SC
Employer: Good Done Great, (855) 364-6635

Using AngularJS, I helped build a web application that served as a social network for charitable giving and helped streamline the process of donating for companies, charities, and users.

Junior E-Commerce Developer (10/15 - 05/16) Savannah, GA
Employer: Gauge Interactive, (912) 228-3265

I coupled the latest front-end technologies with powerful content management systems such as Wordpress, Magento, and Shopify in order to best serve our clients.
